Blowout of Franklin Electric Surplus

By Rob Snow

Over the years, we have collected a surplus of Franklin Electric equipment. Below is a listing of the items we have with pricing. All products are new-in-box but are outside of date codes for warranty. All items are as-is, no warranty.

Description	Qty	Price (ea)
1/2HP 1x230V Control Box	8	\$25
1/2 HP 1x115V 3W Motor	3	\$75
1/2 HP 1x230V 3W Motor	1	\$75
3/4HP 3x460V 3W Motor	1	\$75
3HP 1x230V 3W Motor	1	\$150
Subdrive 150 (1PH input, 3PH output) NOTE: Operates a 3HP motor	1	\$600
Subdrive-300 4N (1PH input, 3PH output) NOTE: Operates a 5HP motor	1	\$1,000
MonoDrive 1PH Variable NOTE: Operates 1PH 1HP motor	1	\$250

Call Rob Snow at (801) 972-0900 for more information or to purchase any of these products.

Spring Runoff Causing Your Customers a Problem?

By Ken Wynder

Damp and leaking basements can be a continuing challenge. Homes in high groundwater areas probably have some sort of sump pump already. Those that don't have a pump wish they did, and new constructions will need a pump eventually. Grundfos offers a variety of submersible sump pumps for many applications. As with other Grundfos pump products, the construction of stainless steel is ready to tackle the most aggressive of applications. These are not your "one season" use then throw away pumps you can get at the corner hardware store. Choices of 115V or 230V with 10 or 20ft power cords are in stock. Float switches are also an option. Flows to 50GPM at various heads cover most applications. Call us with your next sump pump question.

Did You Know?

Memorial Day is May 26th this year. Its origins date back to the time after the Civil War. The first widely publicized observance started in the South on May 1st when recently freed slaves decorated the graves of Union soldiers in Charleston, South Carolina. Various states through the north and south celebrated at different times to honor the soldiers of both sides

when it was called Decoration Day as the graves were decorated with flowers. The name transitioned to Memorial Day by 1882. As time progressed, it began to encompass all American soldiers that had died defending our country. Traditionally held on May 30th, it was Federally recognized in 1967 and moved to the last Monday of May. The law took effect in 1971. As we celebrate with bar-b-ques, camping, and picnics, please remember the soldiers that died defending this great nation.

Visiting/Delivery Schedule

5/13-14—So. Utah (Richfield, Hanksville, Moab, Blanding) - Darren
5/16—North/Logan - Rob
5/23—Uintah Basin - Rob
5/29-30—So. Utah (Panguitch, Cannonville, Cedar City, Enterprise, St. George) - Darren
6/10-11—So. Utah (Richfield, Hanksville, Moab, Blanding) - Darren

How It Works

The FZ pump monitoring and tank monitoring unit picks up pump run and tank level signals from your pump station control panel. If an alarm or status change occurs the wireless monitoring unit transmits the signal to the monitoring website where the condition is recorded and then distributed to as many email addresses, cell phones via text message, or pagers as you like. The included monitoring web site service provides configuration tools, live status, event and alarm history, maintenance and service logs, as well as mapping to show the location and status of all of your pump sites on one easy to use web site!

4 digital outputs available fully programmable.

Wireless:
No Phone Lines Needed !

Web-Based:
No Software To Buy Ever !
No Software to Install !

Affordable:
Low Cost
